LOCAL MINING REVIEW.

During the month of March there was shipped from Pioche \$182,956.19 in bullion, a slight increase over the month of February. The pump of the Raymond & Ely mine is now working with entire satisfaction, and the mine is yielding the usual quantity of ore, about seventy-five tons, daily. A good strike is reported on the eighth level of this mine. The Meadow Valley works are about being covered, and a fourteen inch pump, with an eight-foot stroke, will be ordered immediately for the mine. In the Alps mine affairs progress as usual, the mine showing well and turning out the same amount of ore daily. The mill is producing bullion at the rate of about \$1,500 per day. The American Flag mill continues to run steadily, and since the 15th of last month has done some good work. There is no changes to report in the Pioche or Antilles mines. The Superintendent of the Pioche is under the impression that pay ore may be struck at any time. We think Pioche has about seen its worst days. The signs of renewed energy on the part of the trustees of the different mines would indicate that the orders received in regard to the Meadow Valley mine have encouraged every one, and contributed to a more hopeful feeling in the community. The shipments of bullion for the mouth of March show that Pioche is still alive, and doing a little business on its own hook. We congratulate our citizens on the more cheerful prospects.

BAYMOND & ELV. On a visit to the Raymond & Ely mine yesterday we found that the pump had been stopped during the week for three or four days. It has been started again bowever, and is now running in good style at the rate of 81/4 strokes per minute. Mr. Ames has placed everything in first class order around the hoisting machinery, as h alculates to leave on Wednesday next. In the mine work is progressing lively on the eighth, ninth, tenth and eleventh Seventy-five tons of ore is extracted daily. We understand that a very rich body of ore has been struck on the eighth level, but of that fact were anable to get information. The mine is looking well. The mills at Bullionville are producing bullion very rapidly as will be noticed by the amount of bullion shipped by express.

AMERICAN PLAG. The annual election for Trustees occurred on 23d of March with following result: O. F. Giffin, H. E. Giffin, Robt. Sherwood, L. I. Adams, W. E. Hale, A. H. Boyden and B. F. Sides. The Trustees elected O. F. Giffin President, Robt. Sherwood Vice President, Geo. R. Spin-ney Secretary and John R. James Super-intendent. The Superintendent in Pioche shipped on the 27th in bullion The mill has been running very steadily since the 15th inst. and during that time has worked over 400 tons of ore—more ore than has ever been put through that mill in that space of time—and with a prospect of keeping it running for an indefinite period. In the mine they are drifting on the new southwest vein, on the second and third levels. with all possible speed and are extracting some ore. Arrangements are now being made to sink the main shaft to the water level, as the prospects are very flattering in the lower levels as far as work has progressed.

The usual quantity of ore, fifteen tons, is extracted daily. Work on the upper levels is pushed ahead vigorously. The ledges on the various upper levels show no diminution in the quantity and quality of ore. The lower level the last few days looks very promising, the conclusion being that the ledge is liable to be sion being that the ledge is lined to be struck at any moment. The ore ex-tracted from the mine is shipped to the mill of the company, and is enough to keep the mill running steadily. MEADOW VALLEY.

In this mine the same work continues as heretofore reperted, the chlorider's being very successful in taking out ore, which yields them a bandsome percentage. Orders have been issued to the carpenters to start in next week and Ames has been ordered to San Francisco for the purpose of superintending the

ALPS MILL. This mill has run steadily during the past week altogether on ore from the Alps mine. The daily average of bullion turned out has amounted to about \$1,500, making a pretty fair sum for the week.

The bullion is very fine. The managers of the mill are working the ore to a pretty

Mr. Horst has been well-known in Pioche for the last four years as having conducted and managed one of the best restaurants in Pioche, but times getting very rough and he suffering from the effects of the non-payments of his bearings. Boston, April 1 .- The bill for taxation on church property, was rejected in the House by a large majority.

MEMPHIS, April 1 .- At Somerville Tenn, on Thursday last a crowd of masked men, raided two Poles named Hirschlochants out of lown. The gang 15 in number forced themselves into the store before daylight, fell upon and beat the storekeepers, took nearly \$2,000 in cash, led the merchants forth with ropes about their necks to the fair grounds and were about to hang them, but by begging and promising to leave the place the masked rascals let the victims off with their lives. The outrace has created much excitement in the vicinity. A public meeting was held and a committee appointed to ferret out the perpetrators. A number of prominent attorneys volunteered to prosecute the villians without fee if they are caught. ilton stage on Wednesday last suffered There is no cause assigned for violence except that the merchants have been weather on the road, so much so in fact that most of them were compelled to stop at one of the stations and recruit until the next stage came along. It is not doubted that an immunity by the Attorney General has been put in the hands of the Judiciary Committee to be used by them as they think fit.

### PACIFIC COAST.

San Francisco, April 1 .- The Pacific Mail steamer City of San Francisco, for Australia, still lies in the stream waiting orders. The fact that the City of Peking will sail for China and Japan without delay to-day renders it evident that the belief of the sailing of the Australian steamer is delayed on account of a disarrangement with the colonies as to the payment of the mail subsidy is well grounded, and that no Eastern complications of the company are responsible for

the delay. While the citizens of the anti-Chines Committee were in session last night at Pioche on Monday by the Salt Lake the room of the Board of Supervisors, a well-known quack doctor, somewhat noted for his political aspirations, mounted a stand on Kearney street, near the City Hall, and made an inflammatory Rail was resurrected yesterday morning barangue, which soon had the effect to by the application of large doses of Cyrus Noble's celebrated whisky. call together a crowd of barbary coast rangers and passers by. The meeting was disposed to be somewhat riotous and held at the usual bours morning and disorderly, and several passing Chinamen were hustled, kicked and otherwise roughly treated. The whole affair meets with the unqualified condemnation of the entire community. The address pubtake place this afternoon between two lished by the six Chinese companies, alleging that the influx of their countrymen is against their advice and wishes, Cabal Sunday, it being the fifth Sunday from ShroveTuesday. is generally considered a blind on the part of the companies. The Chroni-

cle this morning publishes the substance of an interview with a number of the heads of the Chinese companies, whose utterances are to the same effect as published in the address, viz: that they have no control over the Chinese population, and merely assist them with advice and money if needed in difficulty. That they are as much opposed as the whites to the great immigration, and profess to favor modification of the Burlingame treaty

ending to prevent it. SAN FRANCISO, April 1 .- Among the many reports concerning the delay in the departure of the steamer City of San Francisco, one is to effect that Hart, former agent of the line in China, had put an attachment on her, but that his claim had been settled allowing her to depart. The passenger agent of the Pacific Mail states that the cause of the detention was an order from Sir Daniel Cooper of the New South Wales Govern-

Well executed counterfeit trade dellars are circulating here in large quantities.

San Francisco, April 1.—The steamer City of San Francisco is now announced to sail on the 3d instant. The City of Peking, for China and Japan, sailed shortly after noon to-day.

Recent disclosures of a semi-officia character settles it beyond a doubt that frauds of a most extensive character have been perpetrated in the custom department of this port. Close observation and careful estimates show that goods to the amount of not less than five or six millions of dollars annually enter the country without paying a cent. The larger part perhaps of this business is carried on by the steamers of the Pacific Mail line between New York, San Fran cisco and Panama, Valuable merchandisc landed at Panama, which is a free port, and in trans-shipment there is substituted for other packages which have been shippped from San Francisco to New York, and vice versa as coastwise freight, thus escaping duty. Large amounts of Mexican wool are smuggled into the State from Santa Catalina Island off the coast of Los Angeles county. There is an excellent harbor there but no custom officers. Wool is landed there from Mexico, thence shipped here as wool shorn from flocks on the island. It is believed that these frands in connection with other loose and corrupt practices in the Custom-house here cost the Government nearly fifty per cent. of the revenue that should be collected here. It is probable that this matter will soon be brought more prominently before public attention by action in Washington.
